

ISO 9001: 2015 CERTIFIED COMPANY

www.chemstock.ae

WHO WE ARE

A pioneer in the chemical industry, Chemstock holds the distinction of being one of the few companies who have been able to develop excellent expertise in all aspects of the chemical trade such as Industrial Chemicals, Laboratory Chemicals, Laboratory Equipment and furnishing and even Logistics and Warehousing of chemical products. With such a varied range of services and products Chemstock stands out as a premier chemical company in the Middle East and beyond.

OUR VISION & MISSION

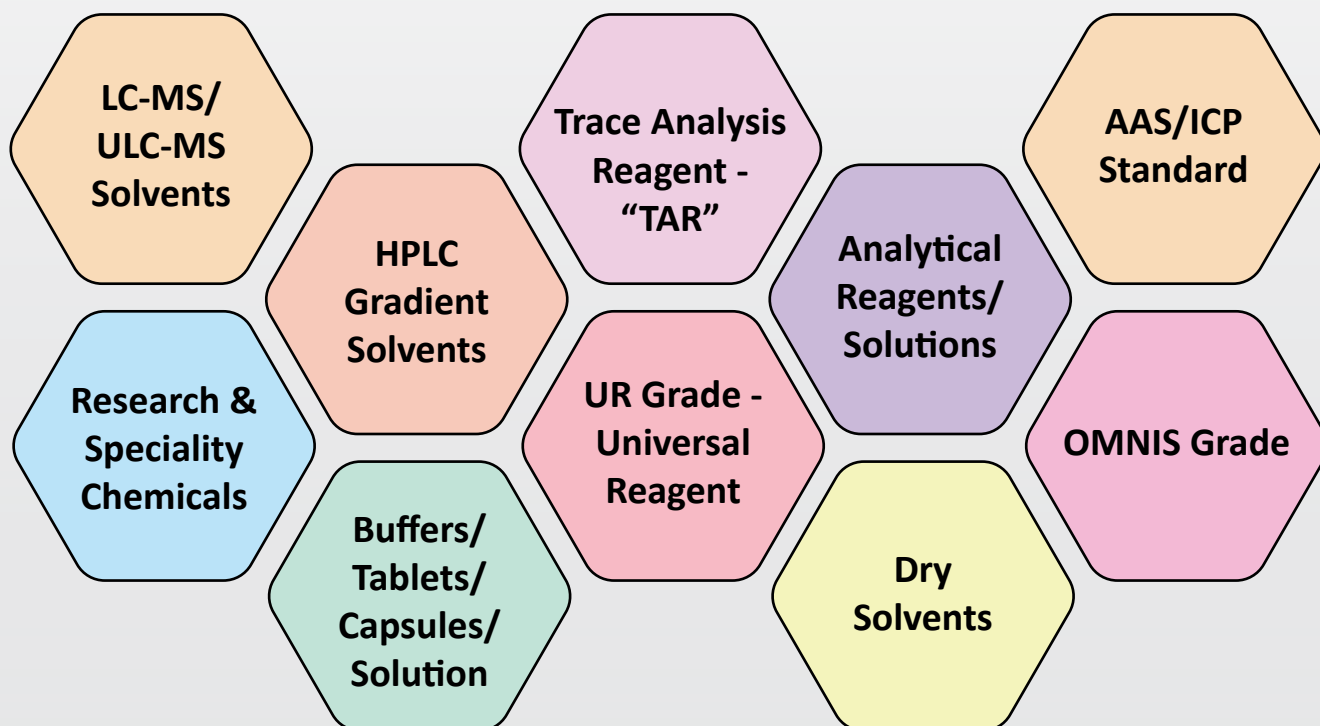

To become the company of choice for our customers and the benchmark for quality of products and services rendered. To be recognized for the integrity of our people and business ethics.

Our mission in business is not to get ahead of our competitors, but to get ahead of ourselves. To break our own records, to outstrip our yesterday by our today. To conduct our business with Integrity and Commitment.

OUR CORE VALUES

We care about the services provided to customers. We define a customer as anybody with whom a commitment is made to supply a mutually agreed product. We firmly believe in accepting nothing less than full conformance to all commitments agreed with a customer. In doing this we continuously strive for perfection in providing the customer the best level of service.

We also care for our suppliers' cooperation and support. We are committed to market their products with integrity.

Replacement Probes

Solutions and
Care Kits

Successful outcome of any project depends on its successful planning. Designing a project starts with understanding core project requirements and then developing a solution that best meets the customer's aspirations.

**Wall Benches /
Wall Cabinets**

**Centre Benches,
Island Benches,
Peninsular
Benches**

**Ducted Fume
Hoods With PP Fan**

**Ductless Fume
Hoods With
Filtration**

**Safety Cabinets –
Flammables And
Corrosive**

**Emergency Showers
With Eye Wash**

Laboratory Seatings

**Mechanical
Mobile Shelving**

Graduated cylinders & Volumetric flasks

Erlenmeyer flasks

Beakers

Reagent Bottles

Dean & Stark Apparatus

Storage Facility Details

Sprawling storage area of 60,000 sq. ft

Civil Defence storage approval for over 500+ Chemicals

MOH, Dubai Police & Municipality Approval for restricted chemicals

Temperature controlled warehousing space

Filling and repacking stations for solvents and corrosive chemicals

Logistics Solutions

Customs clearance of all DG and non DG cargo in UAE

Palletization, container stuffing & destuffing

Chemical storage on rental basis provided

Logistics, container booking, sea, land and air shipments

Our Expertise

Ethanol : 99.9 % Anhydrous grade and 96 % Extra Neutral Alcohol

Ethanol is a valuable ingredient in the production of pharmaceuticals, air fresheners, cleaning products, perfumes, personal care products, cleaning products, printing ink, paints and preserving agents.

Hydrogen Peroxide : 35 %, 50 %, 60 %

Hydrogen peroxide is an environmental friendly oxidant used mainly for bleaching textiles and wood pulp, etching in semiconductors, soil remediation and wastewater disposal.

Ammonium Nitrate : Low Density & High Density

Ammonium Nitrate is used as a raw material for producing secondary explosives in the mining industry. It is also used in the medical industry for the production of Nitrous Oxide (Laughing gas).

Nitric Acid 68 %

Nitric acid is a key component in the manufacture of Ammonium nitrate, Adipic acid and Terephthalic acid. Other applications are gold purification & cleaning of stainless steel vessels.

Hydrochloric Acid 32%

Hydrochloric acid has many uses in the production of fertilizers, dyes, electroplating and rubber industries. Its also extensively used in the galvanizing and oil field industries.

Sodium Hypochlorite

Available in concentrations from 2 % till 15%, Sodium hypochlorite finds its use extensively in sanitization and waste water treatment.

Caustic Soda Flakes / Solution

Caustic Soda is used to manufacture many everyday products, such as paper, aluminum, commercial drain and oven cleaners, and soap and detergents.

Soda Ash

Over half of all Soda Ash production is used in glass manufacturing. It is also used in production of powdered detergents and soaps, rechargeable batteries as well as used extensively in metallurgical processes, across the food, cosmetic and pharmaceutical industries.

LAB & LABSA

Both products are used in the detergent industry for the manufacture of washing powder, detergent powder, detergent cake, liquid soap, oil soap, scouring bar and cleaning powder.

Oil Field Chemicals

We supply the entire range of Oil Field Chemicals which include Mud Chemicals and Process Chemicals. We have partnered with **PT. Dua Pakar Rekacipta (Dupara)** for removal of H_2S , CO_2 , Dehydration & Corrosion Inhibitor from gas streams *without the use of chemicals*.
