| <b>HAZARD DANGER</b><br>Flammable solid. Harmful if swallowed. Harmful in contact with skin.May cause an allergic skin reaction. Harmful if inhaled. May cause allergy or asthma symptoms or breathing difficulties if inha led. May cause damage to organs through prolonged or repeated exposure.Harmful to aquatic life<br><b>.PRECAUTIONARY STATEMENTS</b><br><b>Prevention:</b> Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Ground/bond container and receiving equipment.<br>Use explosion- proof electrical/ventilating/lighting equipment Do not breathe dust/fume/gas/mist/vapours/spray. Avoid breathing dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. In case of inadequate ventilation wear respiratory protection.<br><b>Response :</b> IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. IF ON SKIN: Wash with plenty of soap and water. IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. IF INHALED: If breathing is difficult, remove to fresh air and keep at rest.in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.Get medical advice/attention if you feel unwell. Rinse mouth. If skin irritation or rash occurs: Get medical advice/attention If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician Wash contaminated clothing before reuse<br>Specific treatment: refer to Label or MSDS.IF ON SKIN: Gently wash with plenty of soap and water. |                                                                                                                           |                               | IMDG Code : 4.1/I<br>UN No. : 3380<br>IATA : 4.1 |
| <b>Disposal:</b> The chemical waste should be collected by specialized disposal company. The chemical should be mixed combustible solvent and burnt in a chemical incinerator equipped with burner and scrubber. Keep product wet.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                           |                               |                                                  |
